IDEAPAD – SEED GRANT APPLICATION FORM

Grants for upgrading TRL/MRL/IRL status of startups

App ID: cmw2bt5tb000bqrk1cly5izzc · Version: v1 · Status: APPROVED

Target Grant Category: Validation Grant (₹5,000–₹20,000)
Submitted On (IST): 04 Nov 2026, 09:53 pm IST
Requested Total: ₹40,000.00
Verification Hash: ce4a18a3493d

1. Applicant & Startup Details

Name of Applicant (Team Leader): Founder Ananya 1793809411190
Enrollment No.: ENR1793809411190
Program & Department: B.Tech Mechanical · SOET
Team / Startup Name: SolarClean Tech 1793809411190
Contact Phone: 9876543210
Official Email: startup_1793809411190@test.edu

Grant Policy Agreement Acceptance

Policy Agreement Version: v1

Agreement Terms Hash: mock-canonical-agreement-hash-321

2. What is the problem you are solving

यह एक अत्याधुनिक सौर ऊर्जा सफाई प्रणाली है जो जल रहित सफाई तकनीक का उपयोग करती है। The autonomous cleaning mechanism incorporates electrostatic dust mitigation and mechanical wiper passes. Reliability under harsh ambient conditions (45°C ambient, abrasive silica particles) has been lab benchmarked. Reliability under harsh ambient conditions (45°C ambient, abrasive silica particles) has been lab benchmarked. 3. Summarize your proposed solution

Robotic dry cleaning kit with automatic return dock and solar charging station.

4. Summarize your effort and traction so far

Not provided
Has Received Prior Seed Grant: NO

5. Experiment Definition & Proof of Concept Plan

1. Objective (Hypothesis / concept tested)
Not provided

2. Problem Statement (Gap addressed)
Not provided

3. Expected Outcome (Desired metric)
Not provided

4. Methodology (Experimental approach)
Not provided

5. Experimental Setup (Equipment & apparatus)

Not provided

6. Data to be Collected (Primary measurements)

Not provided

7. Validation Criteria (Success thresholds)

Not provided

8. Risks and Assumptions (Key dependencies)

Not provided

9. Timeline (Milestones & work schedule)

Not provided

10. Deliverables (Prototypes, datasets, reports)

Not provided

6. Detailed Requirement for this Experiment (Annexure 1)

S.No	Header / Description	Vendor	Unit Cost	Qty	Total (₹)
1	[1] Precision Component #0 - Specialized Assembly Module	—	₹1,000	1	**₹1,000**
2	[2] Precision Component #1 - Specialized Assembly Module	—	₹1,000	1	**₹1,000**
3	[3] Precision Component #2 - Specialized Assembly Module	—	₹1,000	1	**₹1,000**
4	[4] Precision Component #3 - Specialized Assembly Module	—	₹1,000	1	**₹1,000**
5	[5] Precision Component #4 - Specialized Assembly Module	—	₹1,000	1	**₹1,000**
6	[6] Precision Component #5 - Specialized Assembly Module	—	₹1,000	1	**₹1,000**
7	[7] Precision Component #6 - Specialized Assembly Module	—	₹1,000	1	**₹1,000**

[8] Precision Component #34 - Specialized Assembly Module 35	—	₹1,000	1	**₹1,000**
[9] Precision Component #35 - Specialized Assembly Module 36	—	₹1,000	1	**₹1,000**
[1] Precision Component #36 - Specialized Assembly Module 37	—	₹1,000	1	**₹1,000**
[2] Precision Component #37 - Specialized Assembly Module 38	—	₹1,000	1	**₹1,000**
[3] Precision Component #38 - Specialized Assembly Module 39	—	₹1,000	1	**₹1,000**
[4] Precision Component #39 - Specialized Assembly Module 40	—	₹1,000	1	**₹1,000**
[5] Precision Component #40 - Specialized Assembly Module				

Non-Contingency: ₹40,000 Contingency (0.0%): ₹0 **Grand Total: ₹40,000**

7. Justification for Each Item (By Serial Number)

Item 1 (Precision Component #1 - Specialized Assembly Module): Essential component #1 for experimental prototype assembly.
Item 2 (Precision Component #2 - Specialized Assembly Module): Essential component #2 for experimental prototype assembly.
Item 3 (Precision Component #3 - Specialized Assembly Module): Essential component #3 for experimental prototype assembly.
Item 4 (Precision Component #4 - Specialized Assembly Module): Essential component #4 for experimental prototype assembly.
Item 5 (Precision Component #5 - Specialized Assembly Module): Essential component #5 for experimental prototype assembly.
Item 6 (Precision Component #6 - Specialized Assembly Module): Essential component #6 for experimental prototype assembly.
Item 7 (Precision Component #7 - Specialized Assembly Module): Essential component #7 for experimental prototype assembly.
Item 8 (Precision Component #8 - Specialized Assembly Module): Essential component #8 for experimental prototype assembly.
Item 9 (Precision Component #9 - Specialized Assembly Module): Essential component #9 for experimental prototype assembly.
Item 10 (Precision Component #10 - Specialized Assembly Module): Essential component #10 for experimental prototype assembly.
Item 11 (Precision Component #11 - Specialized Assembly Module): Essential component #11 for experimental prototype assembly.
Item 12 (Precision Component #12 - Specialized Assembly Module): Essential component #12 for experimental prototype assembly.
Item 13 (Precision Component #13 - Specialized Assembly Module): Essential component #13 for experimental prototype assembly.
Item 14 (Precision Component #14 - Specialized Assembly Module): Essential component #14 for experimental prototype assembly.
Item 15 (Precision Component #15 - Specialized Assembly Module): Essential component #15 for experimental prototype assembly.
Item 16 (Precision Component #16 - Specialized Assembly Module): Essential component #16 for experimental prototype assembly.
Item 17 (Precision Component #17 - Specialized Assembly Module): Essential component #17 for experimental prototype assembly.
Item 18 (Precision Component #18 - Specialized Assembly Module): Essential component #18 for experimental prototype assembly.
Item 19 (Precision Component #19 - Specialized Assembly Module): Essential component #19 for experimental prototype assembly.
Item 20 (Precision Component #20 - Specialized Assembly Module): Essential component #20 for experimental prototype assembly.
Item 21 (Precision Component #21 - Specialized Assembly Module): Essential component #21 for experimental prototype assembly.
Item 22 (Precision Component #22 - Specialized Assembly Module): Essential component #22 for experimental prototype assembly.
Item 23 (Precision Component #23 - Specialized Assembly Module): Essential component #23 for experimental prototype assembly.
Item 24 (Precision Component #24 - Specialized Assembly Module): Essential component #24 for experimental prototype assembly.
Item 25 (Precision Component #25 - Specialized Assembly Module): Essential component #25 for experimental prototype assembly.
Item 26 (Precision Component #26 - Specialized Assembly Module): Essential component #26 for experimental prototype assembly.

Item 27 (Precision Component #27 - Specialized Assembly Module): Essential component #27 for experimental prototype assembly.
Item 28 (Precision Component #28 - Specialized Assembly Module): Essential component #28 for experimental prototype assembly.
Item 29 (Precision Component #29 - Specialized Assembly Module): Essential component #29 for experimental prototype assembly.
Item 30 (Precision Component #30 - Specialized Assembly Module): Essential component #30 for experimental prototype assembly.
Item 31 (Precision Component #31 - Specialized Assembly Module): Essential component #31 for experimental prototype assembly.
Item 32 (Precision Component #32 - Specialized Assembly Module): Essential component #32 for experimental prototype assembly.
Item 33 (Precision Component #33 - Specialized Assembly Module): Essential component #33 for experimental prototype assembly.
Item 34 (Precision Component #34 - Specialized Assembly Module): Essential component #34 for experimental prototype assembly.
Item 35 (Precision Component #35 - Specialized Assembly Module): Essential component #35 for experimental prototype assembly.
Item 36 (Precision Component #36 - Specialized Assembly Module): Essential component #36 for experimental prototype assembly.
Item 37 (Precision Component #37 - Specialized Assembly Module): Essential component #37 for experimental prototype assembly.
Item 38 (Precision Component #38 - Specialized Assembly Module): Essential component #38 for experimental prototype assembly.
Item 39 (Precision Component #39 - Specialized Assembly Module): Essential component #39 for experimental prototype assembly.
Item 40 (Precision Component #40 - Specialized Assembly Module): Essential component #40 for experimental prototype assembly.

8. Self Assessment of Project Status

Technology Readiness Level (TRL): Level 1: Idea/principle
Manufacturing Readiness Level (MRL): Level 1: Basic Manufacturing concept
Integration Readiness Level (IRL): Level 1: Integration concept identified
Evaluation Track: Idea Prototyping and proof of concept

9. Self Assessment of Milestones
